INTRODUCTION

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1948 edition of the Bay City Directory, which also includes Essexville.

Confidence in the growth of Bay City's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Bay City to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Bay City Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 12 to 17, on white paper, presents lists of city, county, township and federal officials; post office, public school and court Directories; statistical review; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 349, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Bay City and Essexville, and the name, official personnel, nature and address of each firm and corporation.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 353 to 436. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 64, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Bay City and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Bay City, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 501 to 539 on white paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Bay City and Essexville.

The Bay City Directory Library

Through the courtesy of the publishers of the Bay City Directory, a Directory Library is maintained in the offices of the Bay City Chamber of Commerce, for free reference by the general public. This is one of 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

Modern Bay City, with a population of 52,000, and a former international reputation in lumbering, is a prominent spoke in the industrial wheel of Michigan. The city has all the basic features of a manufacturing center, with none of the customary drawbacks. Here industry is diversified. Brooms and locomotive cranes, potato chips and automobile parts, steel ships and silk stockings, magnesium castings and peanut butter, cigars and electric welding machines, power shovels and pre-cut houses are only a few of the things manufactured.

Transportation facilities embrace four railroads—the Michigan Central, Pere Marquette, Grand Trunk and Detroit & Mackinac; several major trucking lines; commercial air service; and Saginaw River harbor, on Saginaw bay, an arm of Lake Huron, is a regular port of call for the largest freighters on the Great Lakes. Bay City, with Saginaw and Midland, owns and operates a super airport equidistant from the three cities at Freeland.

Bay City's background is rich and picturesque. The city observed its 100th birthday anniversary in 1937. This was once the camping ground of the Chippewa Indians, part of Saginaw Valley, then nestled in the midst of a fruitful pine land. The cutting of these forests formed an industry of immense proportions for those times and earned for Bay City the title

"Lumber Queen of the World." Many colorful chapters of dynamic events in the history of logging in Michigan were written in and around early Bay City. When lumbering was at its height, more than 40 sawmills were located on the river banks. Now all but one have gone, to be replaced by modern manufacturing plants.

Bay City is the governmental seat of Bay County, a highly productive agricultural area that features, among other things, sugar beets. The sugar beet refinery here is the largest east of the Mississippi. Beans, corn, oats, rye and wheat also are feature crops.

The growing of extra fine melons, tomatoes and other produce makes this the gardening spot of Michigan, and an important source of supply for many of the larger cities of the Middle West.

Many excellent retail stores, together with several large, well-stocked wholesale and jobbing firms, make Bay City the trading center of north-eastern Michigan.

Bay City is not a town of portable citizens, sometimes called "Floaters." It is a city of thrifty home-owners (approximately 80%) who take justifiable pride in building their community into a more pleasant and profitable place to live.

Bay City is the portal of the famed tourist playground of northern Michigan—summer and winter. Hereabouts are the best boating, bathing, fishing, hunting and camping. The Michigan State Park on the bay shore, beautified to emphasize nature's work there, is second to none, and is popular with hundreds of thousands from all over the land. Colonies of cottages skirt the water's edge for miles up and down the shore.

With an area of 10.5 square miles, Bay City has the modern equipment of the modern city. Its \$2,000,000 filtration plant supplies drinking water "to the queen's taste." Its two public high schools and junior college are keystones of educational facilities that also include 17 parochial schools. Wide, well-lighted streets and boulevards that are generously shaded by great trees, are sources of convenience, comfort and pleasure which Bay City has not overlooked in its march of progress.

Through its Chamber of Commerce, with headquarters on the Wenonah Hotel mezzanine, Bay City is shaping its course toward steady, healthy, well-balanced progress and the worth-while dividends of diversified community development.

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check operators."

Out of Sight - Out of Mind - Out of Business
 The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
 The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check operators.

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
 You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligible use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business
 The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
 The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against this Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for "bad-check operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages

Do your employers furnish you with the latest edition of the City Directory?
 You need it at your elbow at all times, to protect your company from forgers and bad-
 check artists. A few questions, checked against City Directory information, will trip them
 at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars
 and helped make some cities "too sharp" for bad-check "operators."

*A Unique Service Provided
By The Publishers of Your City Directory*

The publishers of this Directory maintain for the use of their subscribers and the general public a complete library of late out-of-town City Directories. We invite you to consult this library when in need of names and addresses of individuals and firms in other cities. It is especially designed for the reference use of business men who subscribe to the local City Directory, when seeking markets and sources of supply outside this city. There is no charge except for extended continuous use. The library, with attendant in charge, is located at:

Bay City Chamber of Commerce

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1

An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2

A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3

A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4

A "Yellow Section" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5

A *Statistical and Historical Story* of your city; plus miscellaneous other information.
